

Today's Program

August 22, 2006

Surprise... shhhh!

Have you heard about the
Midland Rotary Cup?

Stay tuned for more information

Getting to know you...

We want to assemble a club roster to include a brief biography and a picture of your beautiful faces. We can give them to new members so they can get to know you. You get to know them via the Roadrunner announcement, but this will help them feel more comfortable right from the start. What information should be included in your bio? *Who, what, where, when, why, how and for how long* is a great place to start. Need help? Ask Sarah.

In addition to helping the new members, it will also be a club project that we can use at District conferences. Who knows, maybe all the other clubs will follow suit. We might be starting an epidemic.

We will be taking your pictures over the next few weeks. So watch the birdie and smile for the camera. NO, this is not a good day to wear your funny nose and glasses.

Send your bio to sarah@computerconcerns.com or hand it to her at the meeting. Do you need help writing one? (no you can't get out of this that easily) call her and she will get one written up, with only a few minor mistakes.

Here's one Ed Anderson just did... (thanks, Ed!)
Born and home grown in Midland, Ed graduated from Lee High School, Texas Tech University and the University of Texas School of Law. He served four-plus years active duty with the U.S. Air Force and U.S. Coast Guard, practiced law in California, and was a ski bum before returning to Midland in 1978. He is primarily in the oil and gas business, but still practices law in the fields of oil and gas, and probate. He married Dianne Anderson in 1983, and they raised three children: Valerie, Matthew and Quintin. He also attends Midland College Aviation Technology School, fly fishes, plays golf, dances with Dianne, builds and flies model airplanes, lifts weights, and can build, install and repair almost anything, including his latest project, a rock sidewalk.

In The Future

Get Away Give Away – November 18th – Mark your Calen

Need a make up? http://www.rotaryclubone.org/makeup_how.htm

Speedy Facts

When glass breaks, the cracks move faster than 3,000 miles per hour

A lightning bolt generates temperatures five times hotter than those found at the sun's surface

Forest fires move faster uphill than downhill

A ball thrown on a moving train will have a greater speed than a ball thrown with the same force by someone standing on the platform

The
Rotary Foundation
needs Rotarians.

It needs you!

Be excited.
Be involved.

August Birthday Wishes

Peggy Jones – August 3
Lee Culver – August 7
Sarah Edgell – August 21
Joe Campbell – August 29

August is Membership Month

Invite a Colleague to Lunch

**Members are our most
important asset**
