#### September is New Generations month

New Generations should be programs that encourage young people to join Rotary activities early and understand the *power of joining* a great service organization.

Like fingerprints, everyone's tongue print is different.

Your tongue is the only muscle in your body that is attached at only one end.

The strongest muscle in the human body is the tongue

A crocodile cannot stick its tongue out

Most elephants weigh less than the tongue of the blue whale.

Humans have almost 10,000 taste buds.

The life span of a taste bud is 10 days.

The catfish has over 27,000 taste buds—more than any other animal.
